

BRADSHAW

product focus on...

gorenje

Constantly in search of new, different, and innovative solutions, Gorenje is always open to daring ideas. Gorenje work with globally renowned figures from the world of design and innovation, as well as with their own research and development team and an in-house design studio - resulting in unique solutions fully tailored to the consumer.

Bradshaw are delighted to now offer appliances from this exciting brand.

The New Gorenje Retro Collection in its distinctive style of the past has been upgraded with cutting-edge technology and an array of trendy colours.

Gorenje designed by **Karim Rashid Collection** allows the users to play with colours and to freely adjust the ambiance of their home to their lifestyle.

Gorenje Ora-ito Collection offers technology and high quality in a distinctive design. It addresses particularly the modern consumer who seeks superiorly designed, yet reasonably priced appliances.

Gorenje Simplicity Line features an innovative appliance control system that relies on a single logical button. Designed as a response to contemporary living trends, and the need and desire for simpler controls, perceived among modern consumers.
